

# Same-Day Surgery 1991 Index

## **Abdominal procedures**

caution urged with outpatient laparoscopic cholecystectomy, FEB:13  
endometrial ablation touted as outpatient alternative, DEC:149  
gallstone 'blender' offers alternative to cholecystectomy, FEB:17  
new procedures draw spotlight from biliary lithotripsy, FEB:15  
outpatient microtuboplasty lessens costs, hospitalization, AUG:89  
surgeon's skills and patient's condition affect procedure choice, FEB:15

## **Anesthesia**

clear liquids before surgery offer ASCs more flexibility, SEP:105  
recommended surgical practices updated for anesthesia equipment, SEP:115

## **Ambulatory Patient Groups (APGs)**

Congress eyes APGs, other outpatient proposals, APR:37

## **Cataract surgery (See intraocular lenses)**

## **Coding**

coders advise keeping an eye on incidental procedures, JUL:86  
FASCs should use modifier -51 when listing multiple procedures, JUL:87  
make these coding distinctions for laparoscopic surgeries, MAY:57  
new system under RBRVS to take into account specialties, FEB:23

## **Computerization**

centralized scheduling unit streamlines ASC admissions, MAR:33  
market search is key to finding right computer, AUG:100  
medical information system add-on allows advance booking, JAN:11

## **Discharge criteria**

documenting discharge criteria cuts patient time in recovery, JUN:73

## **Documentation**

careful charting can strengthen center's defense if patients sue, JAN:9  
documenting discharge criteria cuts patient time in recovery, JUN:73

## **Federal government**

ASCs advised to use caution in wake of safe harbors, OCT:122  
bundled fee tested for cataracts, may be expanded, JUN:61  
draft bill would regulate marketing, advertising of ASCs, MAY:54  
EPA may expand project to regulate waste at all ASCs, JUL:82  
fraud alert warns providers not to offer routine waivers, SEP:110  
HCFA cuts payments for terminated ASC procedures, MAR:25  
HCFA says cataract surgery needs payment reform, JUN:63  
loss of tax deduction not hurting SDS facilities, FEB:18  
new law could expose ASCs to penalties, increased liability, MAY:52  
new system under RBRVS to take into account specialties, FEB:23  
OIG outlines exactly what practices are considered suspicious, SEP:110

rebundling requirement kicks in as outpatient-PPS moves forward, MAR:29  
uniform payments proposed for high volume procedures, MAY:49

## **Finances**

ASCs advised to use caution in wake of safe harbors, OCT:122  
costs studied at hospital-based vs. freestanding surgery centers, APR:46  
enhance outpatient billing by strengthening physician ties, DEC:151  
hospitals lack separate plan for outpatient surgery centers, SEP:112  
loss of tax deduction not hurting SDS facilities, FEB:18  
practice trend ratios can keep ASC on track, AUG:97  
try this tool to simplify outpatient-PPS calculations, FEB:19

## **Freestanding centers**

costs studied at hospital-based vs. freestanding surgery centers, APR:46  
FASCs should use modifier -51 when listing multiple procedures, JUL:87  
mobile operating rooms offered as outpatient-surgery alternative, APR:43  
new publication lists guidelines for scoring by Joint Commission, MAY:58

## **Health Care Financing**

### **Administration (HCFA)**

bundled fee tested for cataracts, may be expanded, JUN:61  
Congress eyes APGs, other outpatient proposals, APR:37  
draft 'bundling' requirement would limit outpatient referrals, NOV:140  
HCFA cuts payments for terminated ASC procedures, MAR:25  
HCFA says cataract surgery needs payment reform, JUN:63  
hospitals face same \$200 IOL cap as freestanding centers, JAN:6  
try this tool to simplify outpatient-PPS calculations, FEB:19  
uniform payments proposed for high volume procedures, MAY:49

### **Home health care**

ambulatory infusion pumps permit more complicated cases, NOV:133  
follow these steps to find most suitable infusion pump, NOV:135  
patient training, follow-up speed recovery, JAN:1

### **Infection control**

demonstration surgery center uses hospital's incinerator, JUL:84  
EPA may expand project to regulate waste at all ASCs, JUL:82  
staff at surgery center prefer expiration dates, JUL:79  
sterilization experts urge ASCs to rethink practices, JUL:77  
study on blood contacts points to need for barriers, JUL:80

### **Intraocular lenses (IOLs)**

**cataract surgery**  
bundled fee tested for cataracts, may be expanded, JUN:61  
clinical guidelines coming for treatment of cataracts, OCT:124  
draft 'bundling' requirement would limit outpatient referrals, NOV:140

HCFA says cataract surgery needs payment reform, JUN:63  
hospitals face same \$200 IOL cap as freestanding centers, JAN:6

## **Job market**

data bases, networking offer ammunition in recruitment war, OCT:125  
fewer shortages have resulted in smaller pay increases, NOV:insert

## **Joint Commission on Accreditation of Healthcare Organizations**

Joint Commission makes changes for hospital-affiliated ASCs, NOV:137  
leaders must demonstrate educational effort on CQI, NOV:136  
new publication lists guidelines for scoring by Joint Commission, MAY:58  
take these steps to prepare for Joint Commission surveys, NOV:138

## **Laparoscopy**

caution urged with outpatient laparoscopic cholecystectomy, FEB:13  
laser, laparoscopic surgery center called first in nation, APR:42  
make these coding distinctions for laparoscopic surgeries, MAY:57  
surgeon's skills and patient's condition affect procedure choice, FEB:15  
verify physician's training before tackling new procedures, DEC:145

## **Laser surgery**

ECRI questions safety of NIIC 100 CO<sub>2</sub> laser, NOV:142  
endometrial ablation touted as outpatient alternative, DEC:149  
laser, laparoscopic surgery center called first in nation, APR:42  
outpatient laser surgery reduces pain for hemorrhoid patients, FEB:21  
'Star Wars' research adapted for use in laser eye surgery, APR:45  
physician touts success rate using lasers on nasal turbinates, MAY:55

## **Legislation**

draft bill would regulate marketing, advertising of ASCs, MAY:54  
loss of tax deduction not hurting SDS facilities, FEB:18

## **Malpractice**

centers are required to report adverse actions to data bank, AUG:94  
consider disciplinary process before revoking privileges, AUG:92  
revoking physicians' privileges explained step-by-step in bylaws, AUG:93

## **Management/marketing**

draft bill would regulate marketing, advertising of ASCs, MAY:54  
hospitals lack separate plan for outpatient surgery centers, SEP:112  
leaders must demonstrate educational effort on CQI, NOV:136  
practice trend ratios can keep ASC on track, AUG:97  
surgery centers extend hours to nights and weekends, DEC:153

## **Medicare**

ASCs advised to use caution in wake of safe harbors, OCT:122

bundled fee tested for cataracts, may be expanded, JUN:61  
 Congress eyes APGs, other outpatient proposals, APR:37  
 developer touts strong points of outpatient PPS proposal, APR:40  
 draft 'bundling' requirement would limit outpatient referrals, NOV:140  
 fraud alert warns providers not to offer routine waivers, SEP:110  
 HCFA cuts payments for terminated ASC procedures, MAR:25  
 HCFA says cataract surgery needs payment reform, JUN:63  
 hospitals face same \$200 IOL cap as freestanding centers, JAN:6  
 integrate inpatient, outpatient data prior to outpatient-PPS, MAR:32  
 new system under RBRVS to take into account specialties, FEB:23  
 OIG outlines exactly what practices are considered suspicious, SEP:110  
 rebundling requirement kicks in as outpatient-PPS moves forward, MAR:29  
 try this tool to simplify outpatient-PPS calculations, FEB:19  
 uniform payments proposed for high volume procedures, MAY:49

#### **Nursing staff**

ambulatory nursing team cited for 'phenomenal results,' MAR:27  
 AORN issues guidelines on patient positioning, SEP:113  
 recommended surgical practices updated for anesthesia equipment, SEP:115

#### **Ophthalmic procedures**

bundled fee tested for cataracts, may be expanded, JUN:61  
 HCFA says cataract surgery needs payment reform, JUN:63  
 'Star Wars' research adapted for use in laser eye surgery, APR:45

#### **Orthopedic procedures**

outpatient anterior cruciate ligament repair 'feasible,' JAN:4

#### **Pain**

ambulatory infusion pumps permit more complicated cases, NOV:133  
 follow these steps to find most suitable infusion pump, NOV:135  
 outpatient anterior cruciate ligament repair 'feasible,' JAN:4  
 outpatient laser surgery reduces pain for hemorrhoid patients, FEB:21  
 super-cold probe offers long-lasting pain relief, JAN:10

#### **Patient education**

keys to success in outpatient ano-rectal surgery, FEB:22  
 patient training, follow-up speed recovery, JAN:1

#### **Patient evaluation**

documenting discharge criteria cuts patient time in recovery, JUN:73  
 hospital administrators tout benefits of preadmission program, JUN:64  
 how St. Joseph's system works, JUN:65  
 new report suggests delaying surgery for menstruating women, MAR:28  
 patient training, follow-up speed recovery, JAN:1  
 study finds high incidence of minor complications, JAN:3

#### **Patient relations**

centers turn complaints into tools for improving patient relations, JAN:7  
 non-medical aspects of care color patient's perceptions, AUG:95  
 patient care emphasis may require adjustments, JUN:67  
 surgery centers offer support to reconstruction patients, DEC:158

#### **Payment rates**

bundled fee tested for cataracts, may be expanded, JUN:61  
 Congress eyes APGs, other outpatient proposals, APR:37  
 developer touts strong points of outpatient PPS proposal, APR:40  
 draft 'bundling' requirement would limit outpatient referrals, NOV:140  
 HCFA cuts payments for terminated ASC procedures, MAR:25  
 HCFA says cataract surgery needs payment reform, JUN:63  
 hospitals face same \$200 IOL cap as freestanding centers, JAN:6  
 rebundling requirement kicks in as outpatient-PPS moves forward, MAR:29  
 uniform payments proposed for high volume procedures, MAY:49

#### **Pediatric care**

clear liquids before surgery offer ASCs more flexibility, SEP:105

#### **Plastic surgery**

draft bill would regulate marketing, advertising of ASCs, MAY:54  
 loss of tax deduction not hurting SDS facilities, FEB:18  
 surgery centers offer support to reconstruction patients, DEC:158

#### **Postoperative care/procedures**

23-hour recovery units gain popularity as safe option, JUN:71  
 keys to success in outpatient ano-rectal surgery, FEB:22  
 non-medical aspects of care color patient's perceptions, AUG:95  
 patient training, follow-up speed recovery, JAN:1  
 post-op follow-up offers way to track patient outcomes, JUN:69  
 study finds high incidence of minor complications, JAN:3  
 surgery centers offer support to reconstruction patients, DEC:158  
 tracking program cuts time spent on instrument search, OCT:130

#### **Preadmission programs**

hospital administrators tout benefits of preadmission program, JUN:64  
 how St. Joseph's system works, JUN:65

#### **Preoperative care**

clear liquids before surgery offer ASCs more flexibility, SEP:105  
 patient training, follow-up speed recovery, JAN:1

#### **Quality assurance/quality improvement**

ambulatory nursing team cited for 'phenomenal results,' MAR:27  
 Army expands SDS programs, applies inpatient standards, SEP:108  
 books on QI can prepare professionals for future, NOV:139

careful charting can strengthen center's defense if patients sue, JAN:9  
 consider boosting strategies for quality assurance, OCT:128  
 cross-departmental team critical for QI effort, DEC:155  
 documenting discharge criteria cuts patient time in recovery, JUN:73  
 leaders must demonstrate educational effort on CQI, NOV:136  
 patient care emphasis may require adjustments, JUN:67  
 post-op follow-up offers way to track patient outcomes, JUN:69  
 take these steps to prepare for Joint Commission surveys, NOV:138  
 use these clinical indicators to accumulate QI data, DEC:157

#### **Recovery care**

23-hour recovery units gain popularity as safe option, JUN:71

#### **Risk management**

ASCs advised to use caution in wake of safe harbors, OCT:122  
 careful charting can strengthen center's defense if patients sue, JAN:9  
 centers are required to report adverse actions to data bank, AUG:94  
 consider disciplinary process before revoking privileges, AUG:92  
 fraud alert warns providers not to offer routine waivers, SEP:110  
 new law could expose ASCs to penalties, increased liability, MAY:52  
 OIG outlines exactly what practices are considered suspicious, SEP:110  
 revoking physicians' privileges explained step-by-step in bylaws, AUG:93  
 verify physician's training before tackling new procedures, DEC:145

#### **Salary survey**

fewer shortages have resulted in smaller pay increases, NOV:insert

#### **Scheduling**

centralized scheduling unit streamlines ASC admissions, MAR:33  
 medical information system add-on allows advance booking, JAN:11  
 schedulers relocated to central unit at MA hospital, MAR:35  
 surgery centers extend hours to nights and weekends, DEC:153

#### **Surgeons**

ASCs advised to use caution in wake of safe harbors, OCT:122  
 centers are required to report adverse actions to data bank, AUG:94  
 consider disciplinary process before revoking privileges, AUG:92  
 data bases, networking offer ammunition in recruitment war, OCT:125  
 enhance outpatient billing by strengthening physician ties, DEC:151  
 new system under RBRVS to take into account specialties, FEB:23  
 revoking physicians' privileges explained step-by-step in bylaws, AUG:93  
 study on blood contacts points to need for barriers, JUL:80  
 surgeon's skills and patient's condition affect procedure choice, FEB:15  
 verify physician's training before tackling new procedures, DEC:145
